From: Sina Maleki

Dear Sir or Madam,

I was excited to find your job posting for the Senior Systems Engineer role at BWI GmbH. With over five years of experience in managing middleware systems across Windows and UNIX platforms, combined with a solid background in IT service operations and compliance, I believe I can make a meaningful contribution to your team and the digital future of the Bundeswehr.

Please find my application documents attached. I look forward to the opportunity to discuss my profile in more detail.

Best regards,

Maximilian Becker

- Virtualisierung (VMware ESXi)
- ITIL Foundation
- ISO 27001 Grundlagen
- Sparx Enterprise Architect, Microfocus Dimensions, Alfabet
- Deutsch: C2, Englisch: C1

## Motivation Letter

Dear Sir or Madam,

I am writing to express my strong interest in the advertised position of Senior Systems Engineer for Decentralized Application Support & Middleware at BWI GmbH. With a professional background rooted in complex IT environments and a passion for ensuring the stability and security of critical systems, I believe I am well-suited to contribute meaningfully to your team.

Over the past several years, I have planned, operated, and maintained complex server infrastructures in both Windows and UNIX environments. My work has included supporting middleware platforms, deploying virtualized systems using VMware ESXi, and troubleshooting in high-security IT settings. I hold an ITIL Foundation certification and possess a solid understanding of compliance frameworks such as ISO/IEC 27001.

Being part of BWI's mission to enhance the Bundeswehr's digital capabilities in peace, crisis, and conflict is a challenge I would welcome with commitment and responsibility. I am confident that my structured work style, technical expertise, and sense of ownership would make me a valuable asset to your organization.

I look forward to the opportunity to further discuss my qualifications and enthusiasm in a personal interview.

Sincerely,

Maximilian Becker
