Dear Sir or Madam,

I am writing to apply for the Senior Systems Engineer position in the Decentralized Application Support & Middleware team at BWI GmbH. With a strong background in middleware operations and server infrastructure management, I am confident in my ability to contribute effectively to your digital mission.

In my current role at IBM, I lead initiatives that ensure stability, performance, and compliance across high-security systems. My experience spans across both UNIX and Windows platforms, and I have implemented numerous deployments using VMware and middleware tools such as WebSphere and JBoss.

The opportunity to support BWI in shaping the Bundeswehr's digital infrastructure deeply resonates with my professional ambitions. I take pride in structured work, technical precision, and a commitment to secure and efficient operations.

I would welcome the chance to bring my experience and passion to your team.

Sincerely,

Sophie Wagner
