Dear Sir or Madam,

I am excited to submit my application for the Senior Systems Engineer – Decentralized Application Support & Middleware position at BWI GmbH. With hands-on experience in middleware systems, server administration, and secure IT operations, I am confident in my ability to strengthen your infrastructure team.

Attached you will find my resume and motivation letter. I would be happy to discuss my experience and enthusiasm for this role in a personal interview.

Best regards,

Daniel Hoffmann

Dear Sir or Madam,

I am excited to apply for the Senior Systems Engineer Decentralized Application Support & Middleware position at BWI GmbH. I bring extensive experience in supporting and securing IT infrastructures, particularly in mission-critical and high-compliance environments.

At Siemens AG, I contributed to the implementation of resilient middleware systems and provided 2nd and 3rd level support across UNIX and Windows platforms. I am ITIL certified and comfortable working in secure environments with ISO/IEC 27001 protocols.

BWIs mission of supporting the Bundeswehrs digital transformation aligns perfectly with my values. I am eager to bring my operational expertise and commitment to excellence to your organization.

Thank you for considering my application.

Sincerely,

Daniel Hoffmann
